

MC1-F

Fire retardant treatment

NOT HOMOLOGATED

On special order only!

REMINDER

Impressive fires that took place in the car's preparation area (Pits, Paddock..) during various events reminded us all, that fire protection is a must have in these areas as well.

We cannot emphasize the importance to have everyone working in those areas to at least be dressed in certified fire retardant under wear (that includes socks these items are too often neglected), hood (balaclava), suits, gloves and boots.

MC1-F technical staff suit
